

## A Box decorated with Deco Foil

v15238

These white papier-mâché boxes are decorated with deco foil using double-sided foil tape.

### *Comment faire*

**1** Cut a piece of double-sided foil tape the same size as the box lid.

**2** Remove the protective paper layer on one side of the double-sided foil tape.

**3** Attach the sticky side of the double-sided foil tape to the lid, rub it on and remove the other protective layer.

**4** Cut a suitable piece of deco foil, place it on top of the lid (i.e. the sticky foil tape) and rub.

**5** Carefully pull off the deco foil. If the deco foil has not transferred completely onto the sticky foil tape, just rub on some more deco foil.

**6** Cut or punch out some designs from double-sided foil tape.

**7** Attach the foil tape designs onto the sides of the box.

**8** Rub on the deco foil using the same procedure as on the lid.
