A Sea Horse hanging Decoration made from a Polystyrene Ball covered with Foam Clay

v15258

Make your very own sea horse from a polystyrene ball covered with Foam Clay. You may insert an eye pin into the top of the sea horse for hanging.
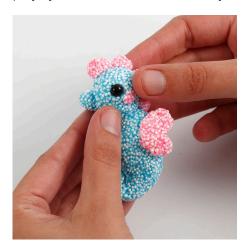

Comment faire

1 Make the head by rolling out Foam Clay flat and covering the polystyrene ball with the Foam Clay.

2 Model Foam Clay parts as illustrated in this photo.

3 Assemble all the parts and roll the tail into a coil.

4 Push plastic eyes into both sides of the head and model little cheeks from Foam Clay.

5 Push an eye pin into the top of the sea horse and feed a piece of string through the loop if you want to use it for hanging.
