

Glass Bottles and Candle Holders decorated with Faux Leather Paper

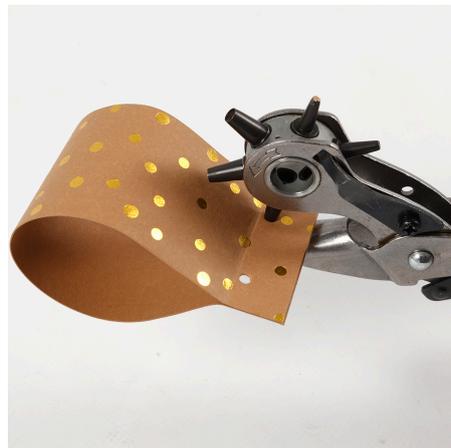

v15200

These pharmacy bottles, vases and candle holders are decorated with faux leather paper with gold dots.

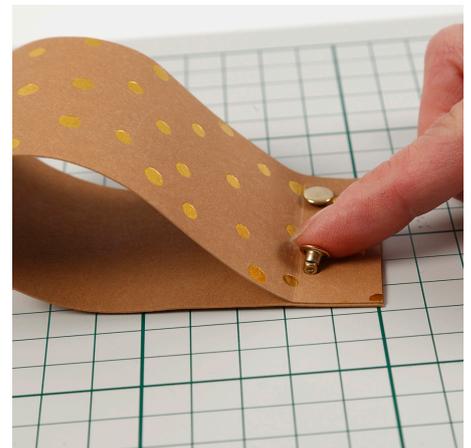

Comment faire

1 Cut a piece of faux leather paper to your chosen width. Wrap the faux leather paper around the bottle and add another approx. 2 cm for rivets.

2 Make holes for rivets with revolving hole punch pliers.

3 Insert the rivets through the holes and push together with the back section of the rivet.

4 Place the rivets on the concave side of the anvil.

5 Set the rivets by striking the flat end of the rivet setting tool with a hammer.

6 Slide the faux leather paper collar onto the glass bottle.
