

Foam Clay Aliens with Googly Eyes and Pom-poms

v15263

These aliens from outer space are made from polystyrene balls and polystyrene bells, covered with glitter Foam Clay and decorated with googly eyes and pom-poms.

Comment faire

1 Cover polystyrene balls and polystyrene bells with Foam Clay.

2 Assemble the balls without glue whilst the Foam Clay is still damp. Push the eyes and pom-poms onto the figure with a small blob of Foam Clay.

3 Make feet by rolling two Foam Clay balls and pushing them onto the figure. Leave to dry.

4 Make freestanding eyes by pushing googly eyes into a blob of Foam Clay. Attach the eyes onto the figure immediately and leave to dry.
