

A Polystyrene UFO decorated with Foam Clay, Pearl Clay and one half of a transparent Bauble

v15264

This UFO is made from a flat polystyrene UFO covered with Foam Clay. One half of a transparent acrylic two-piece decorative bauble is used for the cockpit. An alien pilot and additional decorations are made from Pearl Clay.

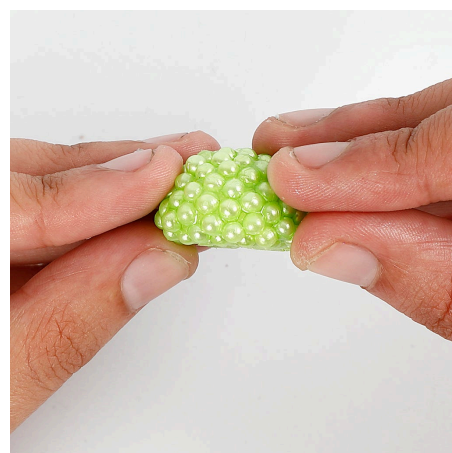

Comment faire

1 Cover a polystyrene UFO with Foam Clay.

2 Mix one tub of Pearl Clay beads with 1/3 tub of transparent modelling gel for a uniform mixture.

3 Model a small alien head from Pearl Clay.

4 Place the head in the middle of the flat side of the UFO and attach a googly eye.

5 Place one half of a transparent acrylic two-piece decorative bauble over the head. Add a thin Foam Clay border around the edge of the transparent bauble.

6 Add Pearl Clay beads for decoration.

7 Make landing gear with Pearl Clay on the underside of the UFO. Leave to dry.
