

Pearl Clay Aliens with Googly Eyes and Pom-poms

v15162

These small aliens are made from polystyrene balls and polystyrene bells covered with Pearl Clay. The eyes and pom-poms are attached using Clear Multi glue gel.

Comment faire

1 Mix one tub of Pearl Clay beads with 1/3 of the transparent modelling gel to make a uniform mixture.

2 Cover a polystyrene bell with the mixed Pearl Clay. You may mix different colours.

3 Roll two Pearl Clay balls and squeeze them flat before attaching them without using glue. Leave to dry.

4 Attach googly eyes using Clear Multi Glue Gel.

5 Cover the polystyrene balls following the same procedure.

6 Assemble the parts without glue whilst they are still damp.

7 Attach a pom-pom using Clear Multi Glue Gel.
