

A Shopping Bag decorated with Knitted Tube Flowers

v15637

Decorate a shopping bag with flowers made from knitted tube. The knitted tube is made using a knitting mill and then sewn together to make a flower.

Comment faire

1 Knit 3 x 50 cm knitted tube on a knitting mill. You will need approx. 40 cm of knitted tube for one flower measuring 6 cm in diameter. You may use different colour wool for each flower.

2 Pick up the four stitches at one end of the knitted tube with a yarn needle and secure.

3 Fold the petals as illustrated in this photo and sew them together using a new piece of the same wool used for the knitted tube.

4 Trim the excess knitted tube and secure the ends.

5 Knit approx. 6 cm knitted tube for a flower bud. Secure one end and sew the knitted tube together into a circle. Finish by securing the other end of the knitted tube inside the flower bud.

6 Sew the flower bud onto the flower with a yarn needle.

7 Sew the finished flowers onto the shopping bag.
