

Porcelain Rabbits painted and decorated with Glass & Porcelain Paint and Glass & Porcelain Markers

v15564

Apply glass & porcelain paint onto the porcelain rabbits. Decorate further with glass & porcelain markers and fix in a household oven.

Comment faire

1 Dab on the glass & porcelain paint using a foam stencil brush. Leave to dry.

2 Dab the foam stencil brush or an ordinary brush in white glass & porcelain paint. Wipe almost all of the paint off the brush leaving only a small amount of paint on the brush. Apply a small amount of paint onto the porcelain rabbit using quick, light circular movements. Highlight the recesses on the porcelain rabbit by dabbing on a bit more paint.

3 Draw the eyes and the nose with a black glass & porcelain marker.

4 Make dots on the body with a white glass & porcelain marker.

5 Place the decorated porcelain rabbit in a cold oven and turn it up to 160°C. Once the temperature is reached, fix the porcelain rabbit in the oven for 90 minutes. Turn off the oven and leave the porcelain rabbit in the oven to cool down.
