

Porcelain Rabbits decorated with black Glass & Porcelain Marker

v15565

Decorate porcelain rabbits with a black glass & porcelain marker in a simple graphic pattern and then fix in a household oven.

Comment faire

1 Decorate the figure with a black glass & porcelain marker.

2 Leave the decorated porcelain rabbit to dry for 8 hours. Then place it in a cold household oven and turn it to 230°C. Turn off the oven after 40 minutes and leave the porcelain rabbit in the oven until the oven is cold. The rabbit is now dishwasher safe at a low temperature.

3 Feed a thin satin ribbon through the loop of the porcelain rabbits (which have loops).
