Wooden Christmas hanging Decorations with Rhinestones

v15556

These small wooden hanging decorations are coloured in with markers. When dry they are decorated further with rhinestones attached with small blobs of Sticky Base transparent, self-hardening modelling gel, applied using your fingers.

Comment faire

1 Colour in the wooden decoration on both sides with markers and leave to dry completely. We have chosen Colortime 2-in-1 markers in beautiful shades, but all markers which are suitable for paper may be used.

2 Roll small blobs of Sticky Base transparent, self-hardening modelling gel and attach them onto the wooden figures where you want to attach the decorations. Attach the rhinestones onto the Sticky Base and leave to dry. Finish by attaching a string for hanging.
