

Bracelets with coloured Sea Shells and a Tassel

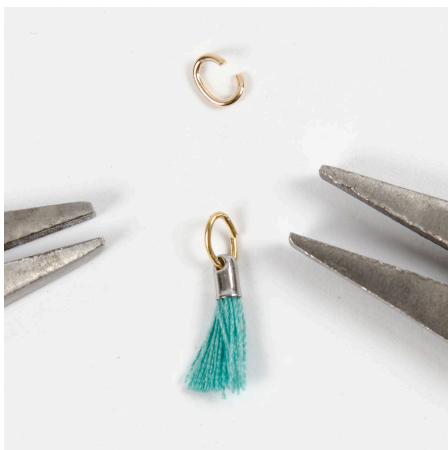

v15466

Make your own bracelets with coloured sea shells, tassels and spacer beads.

Comment faire

1 Tie the elastic beading cord firmly onto one side of the sea shell with five or six tight knots. Tighten the knot firmly to secure.

2 Attach an oval jump ring onto the tassel.

3 Thread the tassel onto the elastic beading cord, then a glass bead. Trim the excess elastic beading cord at one end and hide it inside the bead.

4 Thread flower spacer beads and metal spacer beads onto the elastic beading cord until you reach your chosen length.

5 Finish with a glass bead. Tie the elastic beading cord onto the other side of the sea shell with five or six tight knots, trim and hide the end of the elastic beading cord inside the glass bead.
