Greeting Cards with punched-out Faux Leather Paper Mushrooms

v15448

Make your own greeting cards with mushroom designs. Here are two ideas for autumn greeting cards with punched-out faux leather paper mushrooms. One with a pocket on the front for mushrooms which may be used for hanging decorations. The other greeting card is decorated with faux leather paper decorations and rivets.

Comment faire

1 Punch out mushrooms for hanging decorations from faux leather paper and card. Cut off the stalks and swap them to give the mushrooms a different look. Cut out small card dots and glue them onto the head of the mushrooms.

2 Place a piece of cord onto the stalk and glue two mushroom heads around the stalk and cord. Glue another two mushrooms onto the cord (each consisting of two mushrooms) and tie a knot at the end.

3 Make a pocket for the mushrooms from a 10 x 14.3 cm piece of faux leather paper and a 10 x 12 cm piece of vellum paper. Fold the vellum paper around the faux leather paper and glue it at the bottom and the back with a glue pen.

creativ company

4 Glue it onto the front of the greeting card with a glue pen.

5 Stamp text on the faux leather paper.

6 Cut a small card heart and glue it on.

7 Cut two small incisions at the top of the greeting card. Insert the cord in the slots and leave the remaining cord inside the greeting card.

8 You may make a greeting card without the mushroom hanging decoration and instead decorate it with rivets and faux leather paper grass. Cut a 10 x 14.3 cm piece of card. Cut a small piece of faux leather paper for text and a piece of faux leather paper for grass. Punch out mushrooms like in step 1 and glue all the faux leather paper pieces onto the piece of card.

9 Make holes in the card using a screw punch and set the rivets with a hammer.

10 Glue the finished section onto the front of the greeting card.

11 A mushroom greeting card with a mushroom hanging decoration in a pocket.

12 A mushroom greeting card with rivets and grass.
