

Decorative Wooden Snowmen and a Christmas Tree filled with Foam Clay

v15431

Decorate these decorative MDF shapes with Foam Clay in different colours. The black foam rubber inlay makes it easy to decorate and fill in the figures with Foam Clay. Use Silk Clay for the carrot noses and self-adhesive rhinestones for garlands on the Christmas tree.

Comment faire

1 Apply Foam Clay to the gaps left by the black foam rubber inlay. Foam Clay sticks well to wood.

2 Cover the disc with Foam Clay. The finished figure will stand in the slot in the middle of the disc.

3 Model a nose from orange Silk Clay and press it lightly onto the snowman. Silk Clay sticks like Foam Clay.

4 Place the figures in the slots in the middle of the discs. The melted snowman consists of two MDF shapes both with a black foam rubber inlay.

5 Decorate the Christmas tree with self-adhesive rhinestones like a garland.

6 Make snowballs from Foam Clay and use them for decoration on the disc.

7 Make presents from Foam Clay.
