

A Christmas card with a nosy elf made from deco foil

v15734

Make your own Christmas card with a nosy elf design made from deco foil and glue foil designs.

Comment faire

1 Measure the wreath surrounding the nosy elf on the glue foil design. Add a few mm and cut out the circle from red card.

2 Cut out the glue foil design. Remove the thin protective plastic layer from the glue foil sheet and attach the design onto the red card circle. Rub the glue foil design onto the red card circle. Remove the glue foil sheet to reveal the glue design.

3 Place a piece of deco foil on top of the glue foil design and rub firmly. Carefully pull off the deco foil. Make sure that the entire glue design is covered by deco foil.

4 Decorate the greeting card with more designs. Cut out the glue foil design and decorate the front of the greeting card in the same way as described above. Make a flag from red card and cut it in the same shape as the design from the glue foil sheet.

5 Attach the card circle with the nosy elf and the flag onto the front of the greeting card using 3D foam pads.

6 You may decorate to and from cards in the same way.

7 You may decorate the front of the envelope.
