# A greeting card with a flower made from punched-out hearts
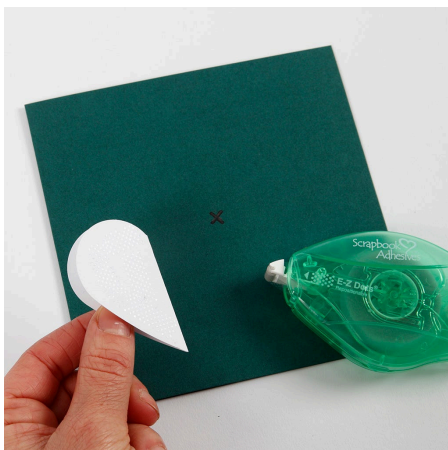

v15788

Make your own greeting card with a flower made from punched-out hearts which are folded in the middle. A half-pearl is attached in the middle for further decoration.

## Comment faire

**1** Punch out seven hearts from white card and fold them in the middle.

**2** Make a cross in the middle of the greeting card. Assemble the petals around the cross. Attach the folded hearts onto the front of the greeting card with an E-Z runner.

**3** Attach a large half-pearl in the middle of the flower. The half-pearl is self-adhesive and may be attached with pliers or tweezers.
