

Un nichoir décoré au pyrograveur

v15584

Décorez ce nichoir en y traçant différents motifs au pyrograveur. Commencez par assembler le nichoir en suivant les instructions fournies.

Comment faire

1 Assemblez le nichoir en utilisant les instructions fournies.

2 You may draw your chosen design with a pencil on the wood. Draw lightly so that you can rub out the pencil lines again if they are visible. Use the standard tip of the pyrography tool for hand drawing and make lovely patterns with the branding stamps using different designs. When the pyrography tool is turned on, then always place it in the supplied holder when it's not being used.

3 You may varnish the wood with weather resistant acrylic lacquer in case you are going to place it in an exposed location.
