

A homemade leaf stamp printed on fabric

v15638

Make a stamp print of leaves on fabric. Draw the leaves by hand and cut out from a rubber carving block. Print the designs onto a shopping bag using Textile Color fabric paint.

Comment faire

1 Draw your chosen design onto the rubber carving block. Alternatively you may print this leaf design from the PDF template which is attached to this idea.

2 Cut away the rubber background around the designs with a lino cutter to make raised designs. You may use lino cutters in different sizes.

3 Use a foam stencil brush for dabbing black Plus Color craft paint onto the homemade rubber carving block stamp until the design is completely covered by the ink.

4 Print the design onto the shopping bag in your chosen pattern.
