

A hair claw decorated with rhinestones

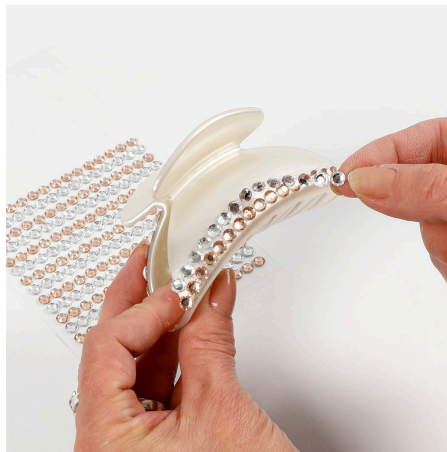

v15643

Decorate a hair claw with rhinestones attached with hobby glue.

Comment faire

1 Apply a line of hobby glue with a brush and attach a row of rhinestones on each line. The rhinestones are self-adhesive but the glue increase the adhesiveness.

2 Adjust the rhinestones across the width to fit the hair claw.

3 Make sure not to attach any rhinestones onto the hair claw spring.
