

A Silk Clay pig

v15631

Make a pig from Silk Clay. The tummy is a polystyrene egg covered with Silk Clay. Bring the pig to life with plastic eyes.

Comment faire

1 Model a flat piece of Silk Clay around a polystyrene egg for the tummy. Make the head from a ball of Silk Clay, adding the appropriate shape. You will need approx. 20 g of skin coloured Silk Clay for one pig.

2 Shape the pig.

3 Make eyes, nose, arms and legs from Silk Clay and attach onto the body. Push the black plastic pins into the head for the eyes.

4 Shape a tail and attach it onto the body.

5 Make nostrils, the mouth and hooves with the modelling tool.
