

A greeting card decorated with glitter glue and sequins

v15807

Decorate a greeting card with glitter glue and teardrop-shaped sequins attached in a snowflake pattern.

Comment faire

1 Draw three lines with glitter glue so that the lines cross each other in the middle of the greeting card. You may draw the design lightly with a pencil beforehand.

2 Attach teardrop-shaped sequins onto the glitter glue lines on the front of the greeting card using Clear Multi Glue Gel as shown in the photo, making a snowflake-like

3 Draw another six lines with glitter glue from the centre and attach a sequin at the end of each line as shown in the photo.
