

Pipe cleaner snowflakes with beads for hanging

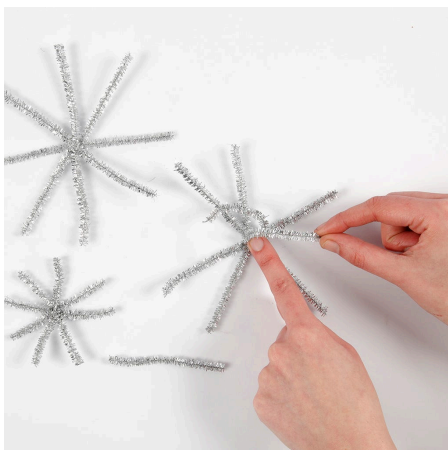

v15761

Make these snowflakes for hanging. Shape them from silver pipe cleaners and thread beads onto the pipe cleaners.

Comment faire

1 Cut six pipe cleaners as follows: cut four pipe cleaners in half and cut both of the remaining two pipe cleaners into three equally large pieces. This will produce two snowflakes.

2 Twist the pipe cleaners together to make three 8 pointed snowflakes; two large and one small. There will be a small piece of pipe cleaner left over to use in the following step.

3 Place a small snowflake on top of a large snowflake and tie them together with the small left over piece of pipe cleaner.

4 Thread beads onto the ends of the pipe cleaners. Finish by attaching a piece of silver thread for hanging.
