

Christmas decorations made from doilies

v15718

Make your own angels, Christmas trees and snowflake rosettes. Trim the doilies and create various shapes for hanging or for table decoration.

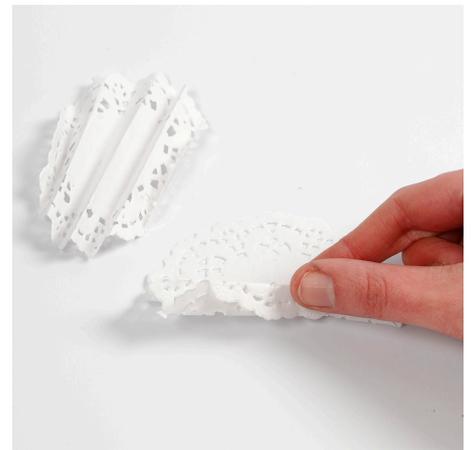

Comment faire

1 Make an angel by cutting into the middle of a doily as shown in the photo.

2 Shape the doily like a wide cone and stick it together with Sticky Base.

3 Make the wings by folding a doily back and forth in a concertina fashion making pleats.

4 Squeeze the doily in the middle and glue the wings together with small blobs of Sticky Base between each pleat.

5 Thread the body, the wings and the wooden bead for the head onto a piece of doubled-over silver thread using a needle, thus assembling the angel. It can now be used as a hanging decoration.

6 Make a halo from a piece of pipe cleaner formed into a loop. Twist it around itself to secure it. Thread it onto the silver thread. You may secure it on top of the wooden bead using Sticky Base.

7 Make a Christmas tree by folding three doilies into cone shapes using the same procedure for the angel's body (steps 1 + 2). Make the cones in different widths as shown in this photo.

8 Roll a ball from Foam Clay and push the bottom slightly flat, almost making it into a semi circle.

9 Push a pipe cleaner into the Foam Clay semi circle and attach a blob of Foam Clay onto the pipe cleaner approx. 4 cm from the bottom. Push the largest cone onto the pipe cleaner so that it rests on the small Foam Clay ball on the pipe cleaner.

10 Repeat the procedure with the other two cones and attach another blob of Foam Clay onto the pipe cleaner approx. 3 cm apart. The smallest cone should be at the top.

11 Trim the pipe cleaner and finish by attaching two snowflake sequins either side of the tree top using Sticky Base.

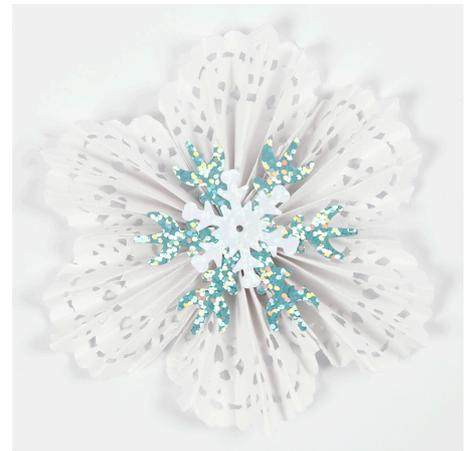

12 Make rosettes by folding three doilies using the same procedure used for the angel's wings (see steps 3 and 4). Fold in half so that they form a "V" shape.

13 Attach the three folded doilies together with Sticky Base.

14 Decorate the rosette with snowflake sequins in the middle attached with Sticky Base.

The finished rosette -
