

Toadstools with a glitter pom-pom body

v15715

Make these small toadstools with a head, a Silk Clay toadstool cap, a sequin snowflake and a body made from a glitter pom-pom. Attach the toadstools onto a decorative metal peg for attaching to the Christmas tree.

Comment faire

1 Use red Silk Clay for modelling a cap around the top of the compressed cotton head.

2 Roll small Foam Clay balls for the dots and push them lightly onto the toadstool's cap.

3 Use Sticky Base for attaching a large sequin snowflake underneath the compressed cotton head.

4 Attach the compressed cotton head and the sequin onto the glitter pom-pom with Sticky Base and leave to dry.

5 You may attach a decorative metal peg underneath the pom-pom so that the toadstools may be used for attaching to the Christmas tree for decoration.
