

Hanging decorations made from self-hardening clay with stamped designs

v15812

Make personal hanging decorations from self-hardening clay. Use stamps and ink for creating stamped designs and names on the clay.

Comment faire

1 Roll out the clay to an approx. 0.5 cm thickness. Punch out a circle with a shape cutter and make a small hole for hanging using a wooden flower stick or similar.

2 Dab ink onto a stamp and stamp the design onto the clay. A tip: any ink smudges outside the stamped design can be removed with a bit of water.

3 Stamp the clay with letters. Remember to mirror the letters.
