

## Stained wooden eggs decorated with a pyrography tool

v15845

Decorate these wooden eggs with Plus Color craft paint diluted with water. Brand different designs onto the wooden eggs with a pyrography tool.

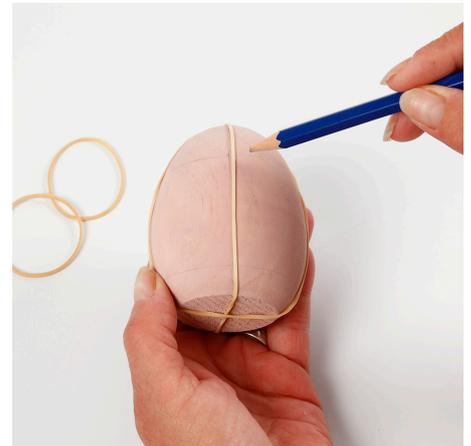

### *Comment faire*

**1** Dilute Plus Color craft with water in a ratio of approx. 2.5 ml water to 1 tablespoon of paint.

**2** Paint the egg with a brush.

**3** Use a pencil to divide the surface of the egg into sections using a pencil. A tip: use elastic bands for straight lines as shown in the photo.

**4** Draw your chosen design with a pencil.

**5** Brand the design with a pyrography tool. Here we have used the small pointed pyrography tip which is included with the pyrography tool.
