

A garland with wooden sea creatures decorated with craft paint

v15920

Make a garland with wooden sea creatures. Paint the sea creatures with Plus Color craft paint using the dabbing technique. Decorate further with details using Plus Color markers and hang the sea creatures on a piece of string (bunting).

Comment faire

1 Dab Plus Color craft paint onto the wooden figures using a foam stencil brush. You may mix the paint for a dabbing/shadow effect.

2 Leave the paint to dry and add further details with Plus Color markers.

3 Tie the wooden figures one by one onto a piece of string through the holes at the top, creating a garland (bunting).
