

Window decorations with outer space designs using chalk markers

v15948

Draw outer space designs with chalk markers on windows. Chalk markers can easily be removed from non-absorbent surfaces with a damp cloth.

Comment faire

1 Print the PDF templates for this idea. Attach them onto the outside of the window (in a plastic pocket if it's raining). Copy the outline of the designs onto the inside of the window using a white chalk marker.

2 Colour in the designs with the chalk markers. Remember to shake the markers well prior to use and gently pressing the drawing tip up and down a couple of times to make the paint flow to the tip.

3 Remove the window decorations with a damp cloth when they are no longer needed.
