

A globe from a rice paper lamp decorated with craft paint and bio glitter

v15922

Make a globe by painting the surface of the Earth with craft paint onto a rice paper lamp and then decorate it with bio glitter.

Comment faire

1 Assemble the rice paper lamp and lightly draw the outline of the 7 continents. A tip: copy the design from a globe onto the rice paper lamp or find a picture online to use for copying.

2 Dab on all the green paint filling in all the continents on the rice paper lamp. Experiment with several shades of green by mixing the paint together.

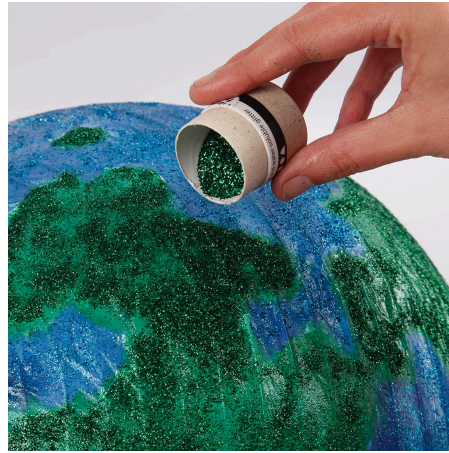

3 Now dab the ocean onto the rice paper lamp with blue paint and experiment with various shades of blue.

4 Apply a thin coat of glue onto the blue areas on the rice paper lamp. Sprinkle blue glitter over the wet glue.

5 Apply a thin coat of glue onto the green areas on the rice paper lamp once the glue underneath the blue glitter is dry. Now sprinkle green glitter over the wet glue on the green areas.
