

Flotte stoffkurver med stempeltrykk

v16209

These lovely baskets may be used for storing, for example, yarn, sewing kit, small teddies etc. If you wish to use them as a bread basket or a fruit bowl, you will need to line them with a napkin approved for food use. Make decorative patterns or text using stamps and give a beautiful and practical present that you have made yourself!

Comment faire

How to do it:

Paint the lower part of the basket with PRIMO textile paint.

2

Fold down the top edge.

3

Use a foam stencil brush for dabbing the paint onto the stamp. Print the folded edge.

4

Spell your chosen word with the foam letter stamps or make a uniform pattern all the way around the border. Leave to dry.

5

You may fix the basket with an iron.

6

Add details with a 3D liner with glitter. Leave to dry.

7

Once fixed with an iron, you may wash the basket at 30°C.

A tip

You may leave out step No. 5. The textile paint fixes on its own after 5-7 days drying time.
