

Kumihimo bracelets

v11364

Braided bracelets on a Mobidai Kumihimo braiding disc. A very simple method that even young children can join in. Tie a knot when the bracelet is the desired length.

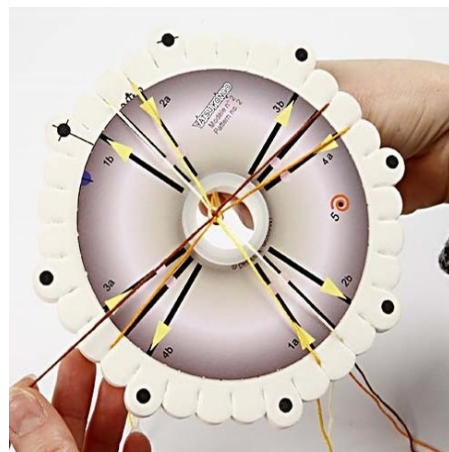

Comment faire

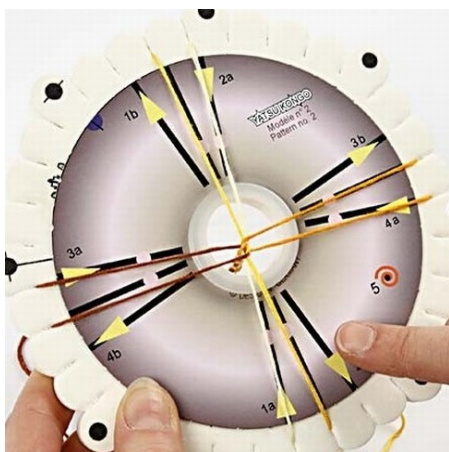

1
Cut four pieces of embroidery floss each measuring approx. 80cm.

2
Double over and tie a knot approx. 10cm from the end to form a loop.

3
Keep the knot under the hole of the Mobidai Kumihimo braiding disc and pull the eight ends up through the hole of the disc.

4
Now lead the one string from 1A to 1B, 2A to 2B, 3A to 3B and 4A to 4B. This is one round. After each round, turn the disc so the strings again will lie on a pink dot.

5
Tie a knot when the bracelet is the desired length.
