

Festive Figures on a Stick

v12204

These amusing rattling creatures on a stick are made from two pieces of fine ribbed corrugated card. They are decorated with wiggle eyes and 3D Liner in neon colours. The bodies are made with lametta and bells so the creatures are able to make some noise.

Comment faire

1. Draw the heads (two pieces) on corrugated card using the chosen template and cut out.

2. Attach a small bundle of lametta onto a flower stick approx. 10cm from the top. Tie a bell on top using elastic cord.

3. Glue the front and the back of the head around the flower stick using clear multi glue gel or a glue gun.

4. Decorate the head with 3D liner in neon colours, wiggle eyes and lametta.
