

Frosted Candle Holders with a Spider's Web and a Spider

v13848

Both frosted candle holders are decorated with a glass and porcelain marker. The candle holder with the drawn-on spider's web is decorated further with a glued-on plastic spider.

Comment faire

1.
Draw a design on the candle holder. Use a glass and porcelain marker. NB: you may fix the candle holder in the oven at 160°C for 90 min. The candle holder can now be cleaned with a damp cloth.

2.
Use Dodz Adhesive Dots for attaching the plastic spider onto the candle holder on top of the drawn-on spider's web.
