

## Polystyrene Fish covered with Pearl Clay

v15153

This polystyrene fish is covered with Pearl Clay. The modelling gel (glue) and the beads are mixed to form a piece which is pressed onto the item.

### *Comment faire*

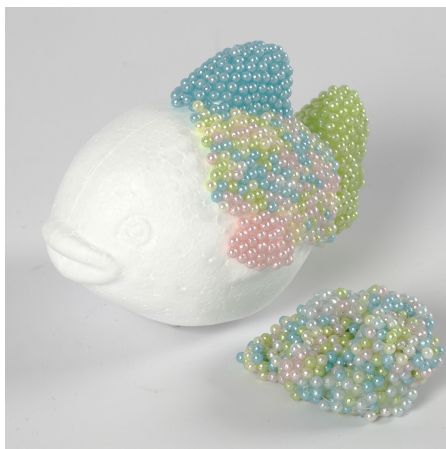

**1**  
Mix the modelling gel (glue) and the beads by hand divide the supplied tub of modelling gel into three equal size portions and mix each portion with a tub of beads).

**2**  
Press the bead piece onto the polystyrene item and smooth out with your finger to form one layer.

**3**  
Make dots by pressing a contrasting coloured bead between the other beads. Make fins etc. in other colours.

**4**  
You may mix many colours to make one big blend of colours.

**5**  
Attach googly eyes with the modelling gel (glue).
