

Painting and decorating on Wood

v15076

Wooden products are ideal for decorating with Plus Color craft paint which has an excellent opacity. Apply Plus Color craft paint with a brush and add lines and fine details with Plus Color craft paint markers.

Comment faire

1

Paint with Plus Color craft paint and leave to dry completely. NB: some wooden products have a very absorbent surface – therefore, it may be an advantage to apply two coats of paint for a smooth and sealed surface prior to decorating with markers.

2

Draw with Plus Color markers when the surface has dried completely. The pump action paint markers work by gently pressing the drawing tip up and down a couple of times to make the paint flow to the felt tip. The marker is now ready for use. Shake the marker as you go along for a uniform colour. Leave to dry.
