1

Paint the papier-mâché product with Plus Color craft paint which has excellent opacity. Very light colours such as white and yellow may require an additional coat because the surface of the papier-mâché is absorbent and dark. Leave to dry.

2

Use Plus Color markers for drawing on the completely dry surface. To use pump action paint markers, gently push the drawing tip up and down a couple of times to make the ink flow to the tip and the marker is ready for use. Shake the marker as you go along for a consistent colour. Leave to dry.
