

Envelopes from recycled paper decorated with gold paper

v15576

Decorate the front of a recycled paper envelope with a gold paper strip (with a punched-out heart) and line the inside of the envelope with gold paper.

Comment faire

1
Cut 4.5-5 cm wide gold paper strips. Trim the strips to the same height as the envelope.

2
Punch out a heart in the paper strips using the die-cutting and embossing machine.

3
Attach a gold paper strip onto the front of the envelope using double-sided adhesive tape.

4
Make a lining for the envelope by drawing around the envelope on a piece of gold paper and cutting it out. Place the paper inside the envelope and attach it with double-sided adhesive tape onto the inside flap of the envelope.
