

Icicles for hanging made from Sticky Base and artificial snow

v15774

Make these lovely icicles by modelling a mixture of Sticky Base and artificial snow. Attach an eye pin at the top to use the icicles for Christmas hanging decorations.

Comment faire

1
Mix artificial snow with Sticky Base.

2
Model the mixture into an icicle.

3
Push an eye pin into the top and leave the icicle to dry on a smooth non-absorbent surface. Turn it occasionally to prevent it being flat on one side.
