

Decorate a soap dish and soap dispenser with pressed flowers

v15876

Dekorér en sæbeskål og sæbedispenser af glas med pressede, tørrede blomster. Lim de tørrede blomster og blade på med decoupage-lak til glas og porcelæn. Hærd ikke decorationen i ovn, da blomsterne bliver brune.

Comment faire

1
Place the dried flowers and leaves on a plastic pocket or similar and carefully apply a coat of decoupage lacquer onto the back using a pointed brush. You may use tweezers when handling and moving the delicate dried flowers.

2
Place the dried flowers and leaves onto the glass item (with the back of the flowers and leaves facing the glass) and carefully apply a coat of decoupage lacquer onto the front of the dried flowers and leaves to seal them. The lacquer should also be applied approx. 1 mm outside the flowers and leaves to make sure they stick onto the glass.

3
Use a cotton bud or a small piece of kitchen roll wrapped around the end of a brush handle in order to remove excess decoupage lacquer. Apply another coat of decoupage lacquer when the first coat is dry.

4

Attach dried flowers and leaves onto the underside of the soap dish. You may use tweezers to hold down any stems that stick out until the decoupage lacquer is dry.

5

NB: These decorated items cannot be fixed in the oven, therefore do not wash them. Wipe them carefully with a damp cloth.
