

Christmas hanging decorations with miniature figures in shape cutters

v15730

Make a Christmas hanging decoration with miniature figures and Christmas trees which are attached inside shape cutters using Sticky Base. Push artificial snow into the Sticky Base. Tie a piece of cotton cord onto the top for hanging.

Comment faire

1
Push Sticky Base onto the bottom of a shape cutter. Fold it slightly over the edge to secure it.

2
Sprinkle artificial snow onto the surface of the Sticky Base and push to set it in the Sticky Base.

3
Attach a Father Christmas figure, a Christmas tree and a car in the damp Sticky Base. Decorate your chosen parts with Sticky Base and artificial snow.

4

Also cover the top of the shape cutter with a small amount of the Sticky Base and artificial snow mixture. Cut a 20 cm piece of striped cotton cord for hanging. Tie it – doubled over – around the top of the shape cutter with a knot. Thread a bell onto the doubled-over cord and tie another knot. Finish with a knot at the end. You now have a loop for hanging.
