

Hanging decorations made from self-hardening clay decorated with natural materials

v15756

Make these hanging decorations from self-hardening clay decorated with natural materials and imprints of, for example, star anise and acorns.

Comment faire

1
Roll self-hardening clay flat with a rolling pin. Cut out a round shape with a round shape cutter.

2
Push natural materials into the damp clay, for example, star anise and star anise seeds.

3
Make a hole for hanging before the clay dries using a thin wooden stick.

4
Push an acorn into the damp clay and then remove it to make an imprint.

5
Leave the hanging decorations to dry and thread a piece of natural hemp through the hole.
