

Turtles painted on stones with Plus Color markers and Silk Clay

v15924

Make turtles from stones by decorating the stones with Plus Color markers and Silk Clay.

Comment faire

1
Gather stones in suitable sizes and shapes – here we have collected round stones. Paint patterns on one side of the stone with Plus Color markers, resembling a turtle shell.

2
Cover the other side of the stone with a thin layer of Silk Clay.

3
Model the turtle's legs and tails from Silk Clay and push onto the underneath of the stone.

4
Roll and shape the turtle's head and attach it onto the side of the stone at one end. Roll small balls for the eyes. Leave to dry.
