

A Circus Princess

v1159

hoe werkt het

1 Colour in the card crown with markers. Draw along the edges with a glue pen, sprinkle glitter onto the wet glue. (We recommend applying glue along the edges, a small section at the time to prevent the applied glue from drying out).

2 Decorate the crown according to your imagination using a glue pen, 3D-Liner and sequins. Attach the sequins with 3D-Liner.

3 Attach self-adhesive velcro onto the crown which can be adjusted according to size.

4 Attach one piece of velcro onto the front of the crown and the other piece of velcro onto the back.
