

A Bracelet with Rocaille beads and Mini Fabric Pumpkins

v11976

Rocaille beads and mini fabric pumpkins are threaded onto a piece of beading wire. A magnetic clasp is used as a fastener.

Hoe werkt het

1. Cut a piece of beading wire long enough to fit three or four times around your wrist. Put on a bead tip and a crimp bead. Squeeze the crimp bead flat and close the bead tip around it.

2. Thread rocaille beads onto the beading wire.

3. Distribute the fabric pumpkins in between. Use a needle to make a hole through the fabric shapes.

4. Close in the same way as at the beginning with a bead tip and a crimp bead.

5. Attach the magnetic clasp.

6 You may use a bead caddy spinner when threading a large number of rocaille beads. Use two pieces of beading wire for the necklace.
