Bloem van origami papier

v11959

Deze bloem is gevouwen van Vivi Gade Design origami papier. De bloem is in elkaar gezet met speciaal dubbelzijdig klevend tape en gedecoreerd met brads.
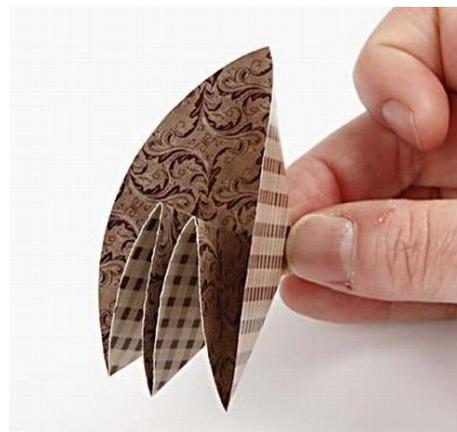

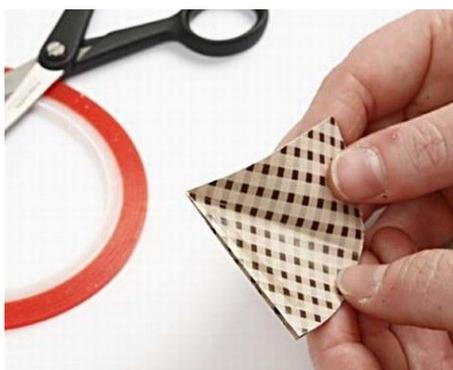

Hoe werkt het

1 Fold the paper in the middle. Then fold the paper again, forming a cross in the middle of the paper.

2 Then fold the paper as shown in the photo.

3 Do the same on both sides.

4 Assemble the flower with special double-sided adhesive tape between the two leaves. TIP! Fold six small flowers to make one flower.

5 Put the six flowers together with special double-sided adhesive tape as shown in the photo.

6 Attach a brad in the middle of the flower using a glue gun.
