

Roze Color Bar kaarten

v12222

Kaarten gemaakt in prachtige kleuren met Color Bar karton en papier. De kaarten zijn gedecoreerd met zelfklevende strasstenen en bloempailletten.

hoe werkt het

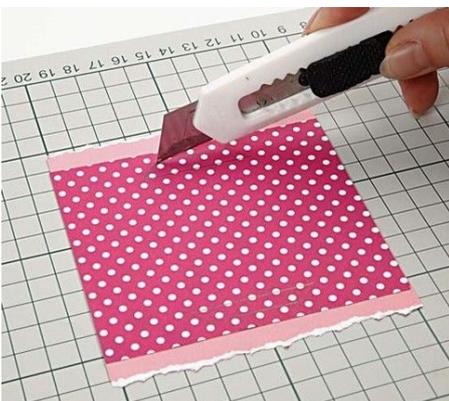

1. Tear a piece of pink card at the top and at the bottom, measuring approx. 11cm x the width of the card.

2. Attach a piece of dotted Color Bar paper the same width as the card x approx. 9cm onto the pink card using double-sided adhesive tape.

3. Cut a 7 x 7cm piece of Color Bar paper (with circles). Draw along the edge by placing this piece onto the dotted Color Bar paper. Cut 2 x 2 grooves horizontally on the dotted piece of paper.

4. Cut the grooves open, creating two ribbon-like slots.

5. Print a photo and glue it onto a piece of pink card measuring 6.5 x 6.5cm.

6. Attach this piece of card with the photo onto the card with double-sided adhesive paper.

7. Fix the photo frame in the two slots.

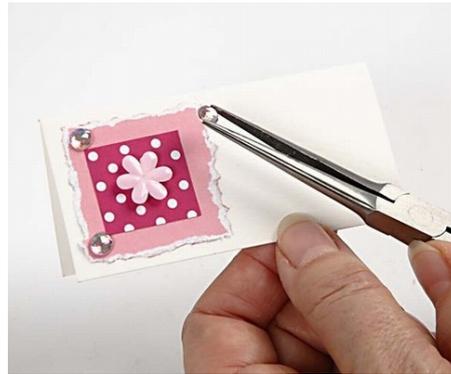

8. Attach flower sequins with 3D foam pads.

9. Attach self-adhesive rhinestones.

10. Make the menu card the same way only with a few variations.

11. The same materials have been used for the place card.
