

Crèmekleurige kaarten met vellum bloemen

v12217

Gemaakt op wit karton met uitgestanste madeliefjes, gebloemd parelmoer papier, zelfklevende strasstenen/halfronde parels en verzilverd draad.

Hoe werkt het

1. Card Cut a 4cm wide piece of flowery textured pearlescent paper and attach it to the card using double-sided adhesive tape.

2. Form coils from 0.6cm silver-plated wire as shown.

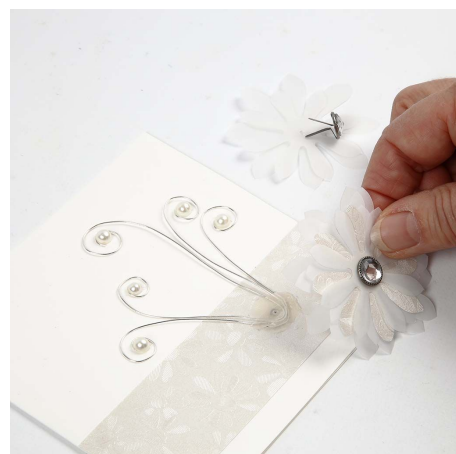

3. Attach the wires with double-sided adhesive tape on top as well as underneath.

4. Attach self-adhesive rhinestone half-pearls.

5. Use a small vellum paper flower as a template for a flower from pearlescent paper.

6. Assemble the vellum paper flowers and the one from pearlescent paper with a brad. Push it through the card. Lift the petals.

7. Use one of the cards to make small signs with text.

8. Decorate with self-adhesive rhinestone half-pearls and attach the small signs with silver-plated wire.

9. Place Cards/Glass Decorations

Twist the silver-plated wire to form a loop and glue four self-adhesive rhinestone half-pearls together in pairs. Attach flowers around the wire and decorate with a brad.

10. Cut a strip of party cardboard. Write the guest's name and assemble/glue around the silver-plated wire with double-sided adhesive tape. Twist the end of the silver-plated wire to form a loop.

11. Menu Cards For the menu card cut a piece of card measuring approx. 9 x 12.5cm. Print the menu onto party cardboard (in the same cream colour as the card). Decorate with flowers, a brad and small self-adhesive rhinestone half-pearls.
