# Kabouters om op te hangen

v12689

Deze kabouters zijn gemaakt van Vivi Gade Design vilt en aan elkaar genaaid met de hand of met de naaimachine.

## Hoe werkt het

**1.** Cut out two of each part. A seam allowance is included in the template.

**2.** Sew the parts together by hand or on the sewing machine, with visible seams (place the fabrics staggered on top of each other).

**3.** Finally sew the back and the front together. Attach a ribbon in the hat as you go along. Trim the edge.

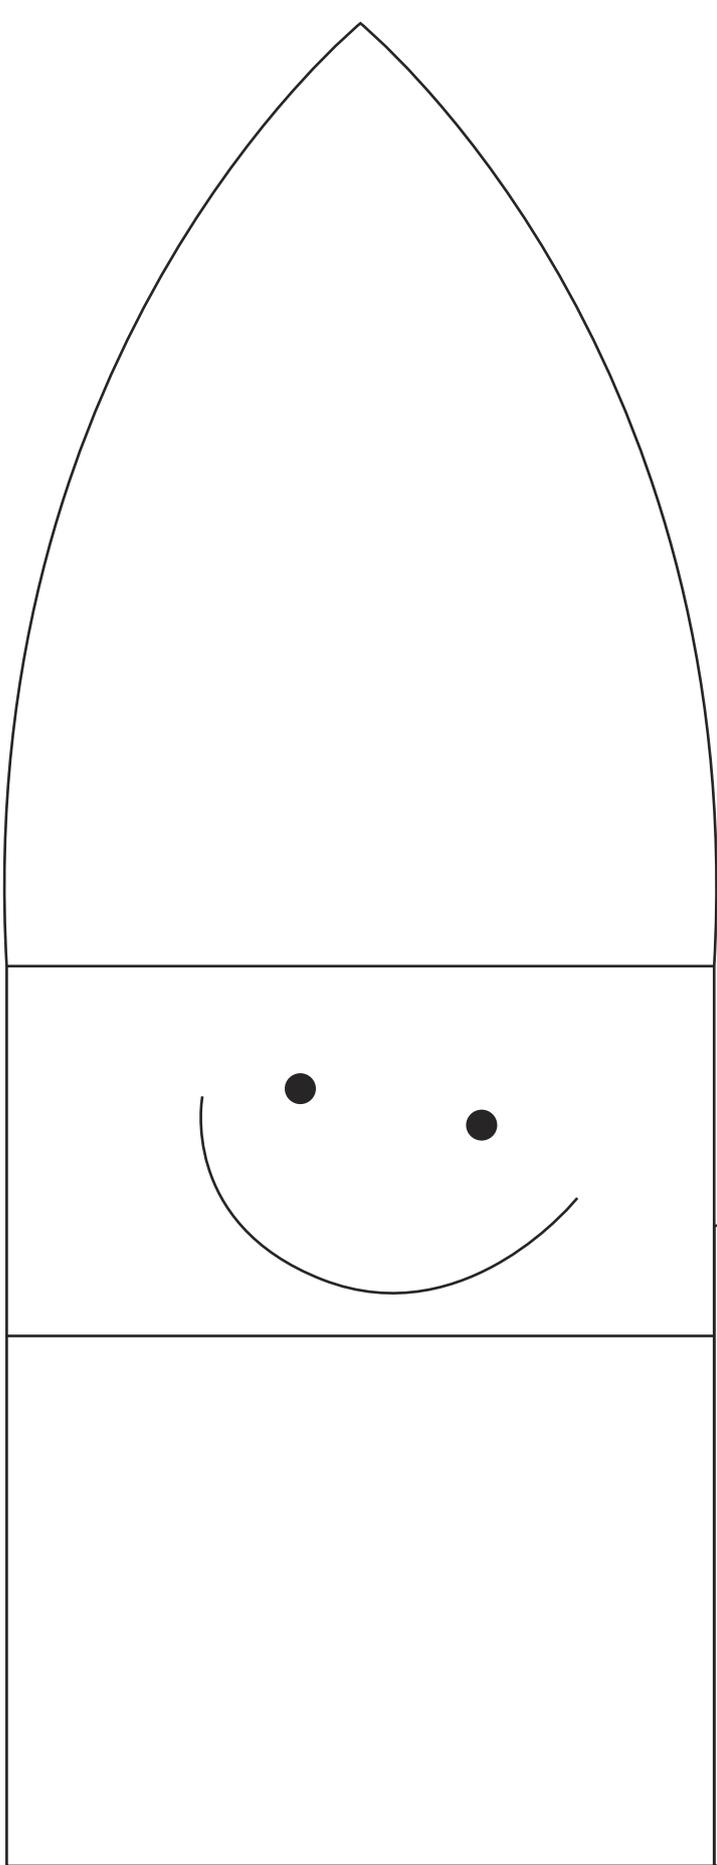

**4.** Now fill the pixie with polyester wadding and close the base.

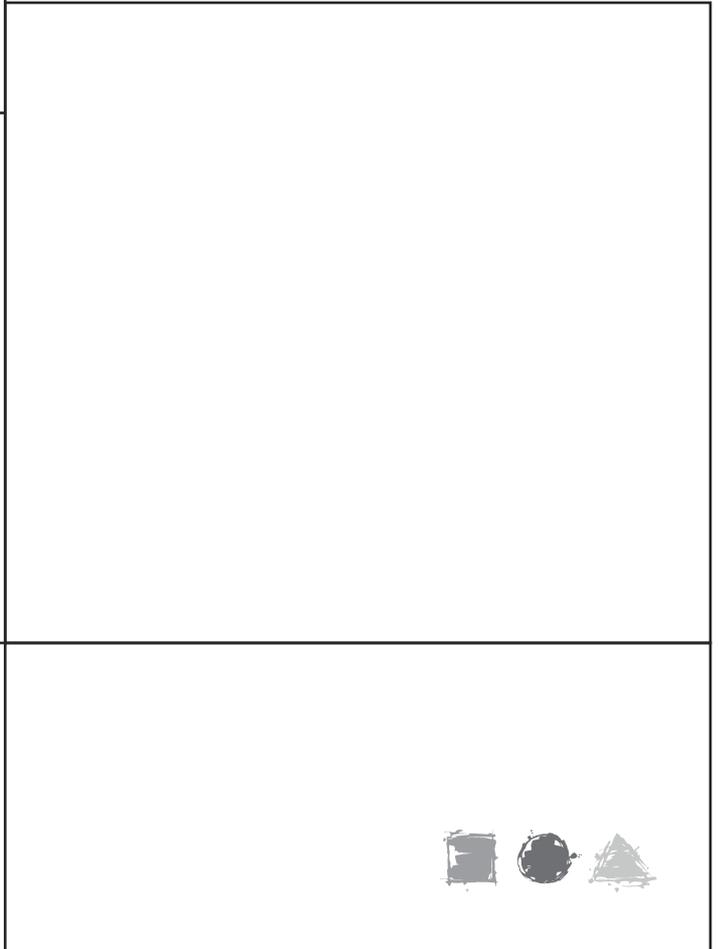

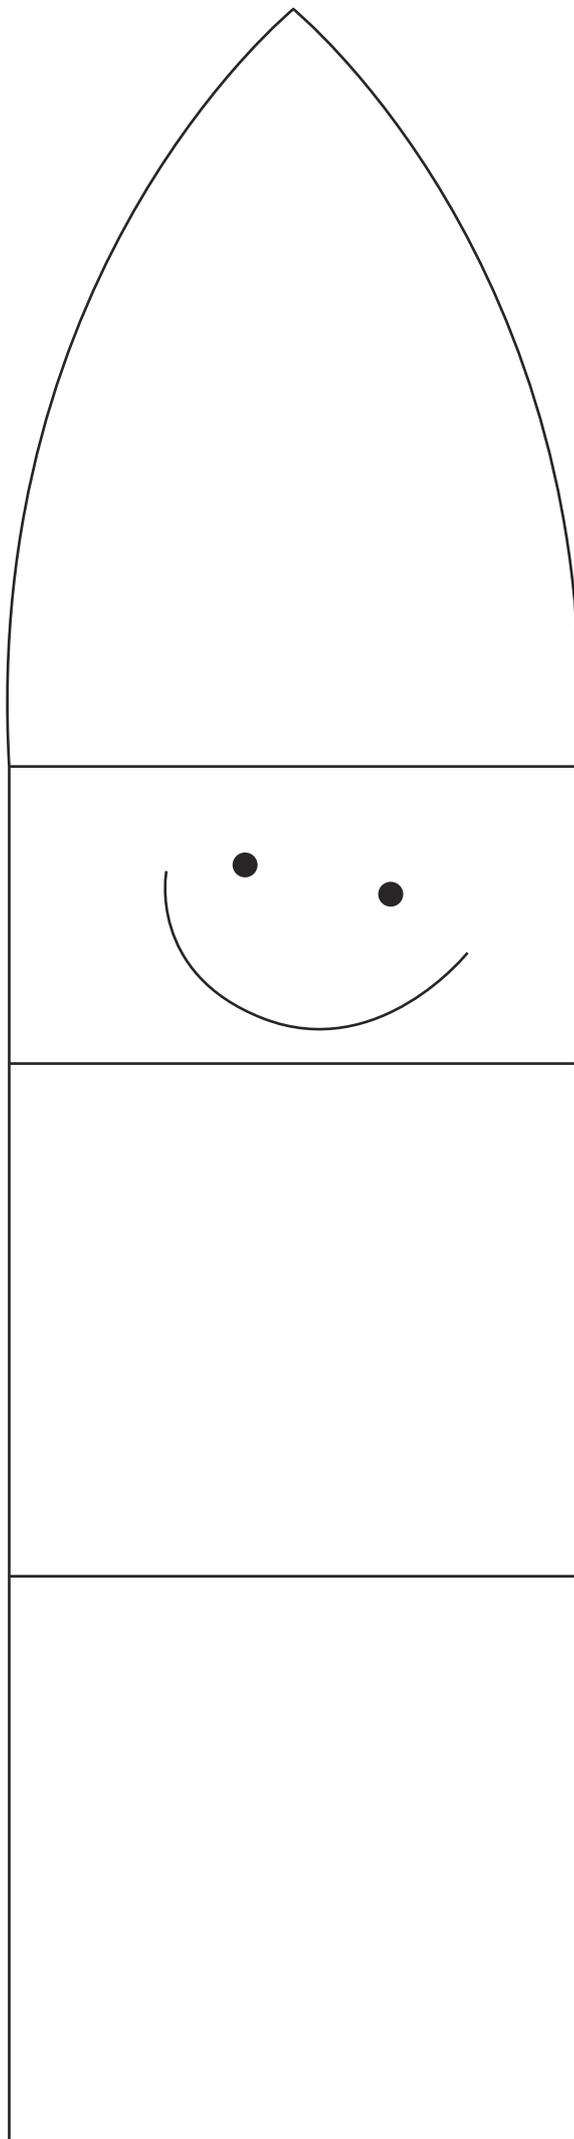

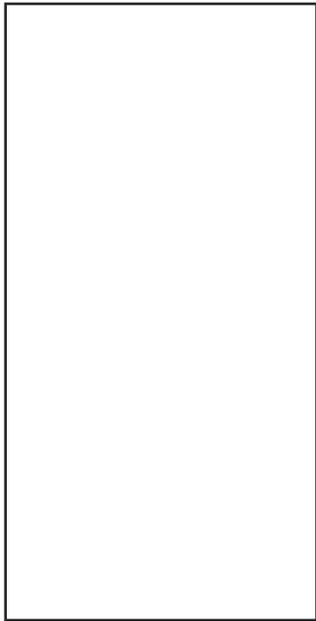

**5.** Embroider the face and the legs with mercerised cotton yarn.
