

Uitnodiging met een houten hart

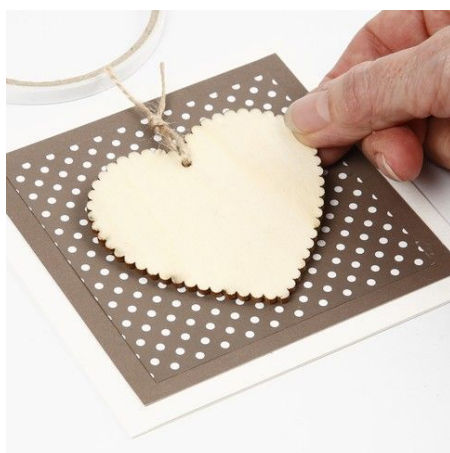

v12939

Deze serie kaarten is gemaakt door de volgende onderdelen op een blanco kaart te plakken: papier en karton uit de Color Bar serie, alsook tekst gedrukt op karton. Decoreer de kaart met een houten hart en een stuk natuurlijk koord.

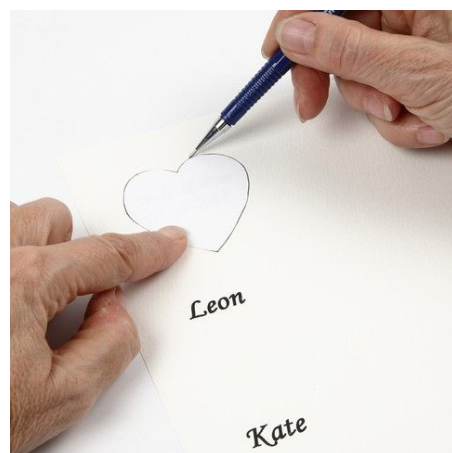

Hoe werkt het

1. Cut the card and paper to size (slightly smaller than the front of the greeting card) and attach using double-sided adhesive tape.

2. Tie a piece of natural hemp through the hole at the top of the wooden heart and attach this onto the front of the greeting card.

3. Print a text onto a piece of party card. Use the template heart when cutting out the text in a heart shape.

4. Attach the heart with the text onto the wooden heart using double-sided adhesive tape.

5. Make a hole with hole punch pliers and tie a piece of natural hemp through the hole.

6. Menu card: Cut a piece of card measuring 28 x 9cm. Score across the middle with a bone folder and fold to make it a double-sided card. Attach the dotted paper, the printed menu and the heart which is cut out from Vivi Gade Design paper (the Skage series).

7. Table decoration: Cut out a heart from Vivi Gade Design paper (the Skagen series) and soften it in warm water making it easy to lie flat and smooth. Decoupage it onto a fabric heart using decoupage lacquer for fabric.
