

Menukaart met kant karton en gestanste bloemen met 3D effect

v15380

Een zomerse menukaart gedecoreerd met kant karton en gestanste 3D bloemen.

Hoe werkt het

1 Cut a 7.5 x 18cm piece of card.

2 Cut a suitable piece of lace patterned card.

3 Punch out flowers and leaves from card and vellum paper. Use cutting plate C underneath and base plate B on top.

4 Print out the menu text and glue it onto the card. Write MENU on the card with a marker (we have used a Plus Color marker). Glue the lace patterned card flower cut-outs onto the card first and then the punched-out flowers in layers.

5 Lift the petals with a thin object to give a 3D effect to the flowers.
