

## Armband voor kinderen met houten kralen

v15540

Kleurige armbanden met houten kralen die zijn geregen op gekleurd elastisch koord.

### *hoe werkt het*

**1** Find the correct length for your bracelet by measuring around the wrist with the elastic cord – don't forget to add extra length for the knot. Thread beads onto the elastic cord. Put the two cord ends together and tie a double knot.

**2** You may hide the knot inside one of the beads.

**Other variants** -
